Marcellus Central School District
District-wide SAVE Plan

INTRODUCTION

This District-wide safety plan (the “District Safety Plan”) has been developed to comply with the mandates of the Safe Schools Against Violence in Education Act (“Project SAVE”) and the Regulations of the Commissioner of Education at 8 NYCRR Section 155.17(e)(1). It provides standard procedures to guide students and staff of the Marcellus Central School District (the “District”) when responding to an emergency. It also sets forth the required drills to keep staff and students familiar with the standard response procedures.

A building-level safety plan (the “Building Safety Plan”) has also been developed to comply with Project Save to establish specific emergency response plans for each school building. The Building Safety Plans will be in the form that has been approved by the Board of Education (the “Board”). The Building Safety Plans will provide detailed response procedures for each school building in the District. Such plans will comply with the requirements of Education Law §2801-a (3) and the Regulations of the Commissioner of Education at 8 NYCRR §155.17(e)(2).

Project SAVE requires that this Plan include policies and procedures on several prescribed topics. In some instances, a general policy on a prescribed topic is set forth in the District Safety Plan and the specific procedures to implement such a policy are included in the Building Safety Plans or annexed as an appendix to the Building Safety Plans.

Emergency situations can range from man-made problems such as power outages, fires and bomb threats to natural disasters like blizzards and floods, and may present highly dangerous situations or mere inconveniences. In an emergency situation, the District’s priorities are first the protection of life, then preservation of property and restoration to normal activities. This Plan and the Building Safety Plans describe procedures for a variety of emergencies. Obviously, no plan can cover all possible emergencies. Therefore, District officials are to use their judgment and discretion in responding to an emergency in a manner consistent with the provisions of this Plan and the applicable school Building Safety Plan in a manner that will minimize loss of life, personal injury and property damage.

2. POTENTIAL EMERGENCY SITES AND HAZARD IDENTIFICATION – 155.17(e)(1)(I)

A. MAPS AND FLOOR PLANS

Generally, the sites of potential hazards are:

1. Utility Shut-off (Gas, Water, and Electrical)
2. Phone jacks for outside lines
3. Chemical Storage areas
4. Mechanical Storage areas
5. Kitchen area(s)
6. Mechanical rooms (HVAC, etc.)

The Building Safety Plans include map renderings and floor plans of each building. The potential hazards for each building will be clearly indicated. 360 degree images of classrooms, hallways, common areas and mechanical rooms are available to first responders and district administration in Navigate Prepared.

B. SURVEY OF VULNERABILITY

The buildings covered by this plan include:

1. K.C. Heffernan Elementary School, 2 Learners Landing, Marcellus, NY 13108
2. Chester S. Driver Middle School, 2 Reed Parkway, Marcellus, NY 13108
3. Marcellus Senior High School, 1 Mustang Hill, Marcellus, NY 13108

We have surveyed sources of potential emergencies within our school buildings, grounds and community locations. Site-maps and floor plans of our buildings have been provided to local police and law enforcement but are kept confidential due to security reasons. A survey of vulnerability is included in each building level plan. Specific procedures for various emergencies are provided within each building-level plan.

3. PROTECTIVE ACTION OPTIONS - 155.17 (e)(1)(xv)

A. GENERAL EVACUATION

Evacuations may be necessary in the event of fire, weather, other emergency, or violent incident. Upon notification of the need to evacuate, teachers should instruct students to remain calm and quiet, and depart the building in an orderly fashion according to previously established evacuation routes, or alternate routes as instructed. Protocols for each emergency response procedure are in the Building Safety Plans.

1. Building occupants will be notified to evacuate the building by one of the following means depending upon the nature of the emergency:
 - (a) Fire Alarm
 - (b) Intercom System
 - (c) Verbal or Written Notification

Marcellus Central School District
District-wide SAVE Plan

3. PROTECTIVE ACTION OPTIONS - 155.17 (e)(1)(xv) - continued

2. Upon receiving an evacuation notice, faculty and staff shall survey their areas and evacuation routes for hazards and/or suspicious hazards in order to ensure a safe and expeditious evacuation.
3. The normal evacuation route(s) for students, faculty and staff for each school shall be specified in the Building Safety Plan and included in the Emergency Response Bag. Normal evacuation routes will also be posted in each room.
4. Teachers are to bring their Daily Attendance Records with them. Attendance shall be taken upon evacuating and again if relocated to an alternate site. Teachers may be asked to turn in their Attendance Roster to the Building Administrator for use at the emergency command post.
5. Normal evacuation routes will be used unless the emergency prevents use of exits and/or corridors. Alternate routes may be announced using the school's intercom system. The intercom system shall not be used in situations that may endanger students/staff (e.g., barricaded gunman). In the event of power failure, the Building Administrator can direct ancillary staff to communicate alternate evacuation routes.
6. Suspicious items found must be left alone and immediately reported to the Building Administrator and/or emergency service personnel.
7. Persons evacuating should remain calm and orderly in order to prevent panic and confusion.
8. Elevators may not be used for evacuation purposes unless approved by the Building Administrator or emergency personnel.
9. All persons shall proceed to the designated Safety Zone and remain there until further notice.
10. Teachers must take attendance once in the designated Safety Zone, and are to notify the Building Principal if a student is not present.
11. Any time teachers have to relocate their class, attendance should be taken before departure and upon arrival. If students are to be evacuated off-campus, teachers are to take attendance before students begin loading on the buses and once the buses are loaded, to assure that all students are accounted for.
12. Occasionally, there may be a need to relocate students from the Safety Zone to a predetermined Relocation Center. If evacuation is ordered beyond the Safety Zone, students will be evacuated by bus either to their homes or a safe location. The decision to evacuate the Safety Zone will be made by the Incident Commander upon consultation with the Superintendent of Schools. Procedures for evacuation to an off-site location are outlined in part C of this section. Students will not be allowed to go home on their own (i.e., walking or in personal vehicles). A parent or a pre-arranged surrogate may sign a Student Release Form and pick up their child at the designated reunification site.

Marcellus Central School District
District-wide SAVE Plan

3. PROTECTIVE ACTION OPTIONS - 155.17 (e)(1)(xv) - continued

13. The School Nurse should have a medical alert list and have supplies available at all times. For supplies not on hand the School Nurse will be prepared to make arrangements to provide medical assistance at the relocation site or along the evacuation route as necessary in coordination with the Building Administrator and the Incident Commander.
14. Building Administrators will follow directions received from the Superintendent and/or the Incident Commander. Principals will determine when staff may be permitted to leave after their students have been safely released and they are no longer needed for emergency duties.

B. EVACUATION OF DISABLED STUDENTS, STAFF AND FACULTY

In the event of an evacuation, special care must be taken to ensure that disabled persons are safely transported out of the building. Each Building Safety Plan shall have a list of special needs students and the persons who have been designated to assist them.

1. An Assisted Evacuation Plan form is attached as an appendix to the Building Safety Plans. This form should be completed for every child or staff member who has limited mobility and for any other who would require assistance to leave the building in an Emergency or require any kind of special accommodations during an Evacuation. The plan for each student should be reviewed annually.
2. The Assisted Evacuation Plan will designate the person(s) responsible to assist in evacuating the non-ambulatory person as well as alternates for situations in which the person with primary responsibility is not available. The person with primary responsibility should be someone who is likely to be near the person who needs assistance, not someone who may have to take time to travel through the building or against the flow of traffic. Proceed to the assigned exit point and loading area for transportation.
3. A copy of the Assisted Evacuation Plan should be included in the Emergency Response Bag.
4. In case of an Emergency where evacuation or a long-term stay on-site is required, the Director of Special Education and designated staff will respond to the Relocation Center or to the designated Safety Zone to assist with special education students and staff who serve them.
5. If coordinated services are required from outside agencies that specialize in dealing with students with disabilities, the Director of Special Education will act to facilitate the use of such groups.
6. Designated staff from the office of the Director of Special Education will provide additional assistance where needed.

3. PROTECTIVE ACTION OPTIONS - 155.17 (e)(1)(xv) - continued

C. EVACUATION TO AN OFF-SITE LOCATION

1. First Step

The Building Administrator, or designee, will confer with the Superintendent, or Incident Commander, to assess the situation causing the evacuation. Such a decision would be made if the safety of students and staff is threatened if they are to remain outside on school grounds. This procedure could also be used when evacuation occurs during harsh weather conditions. When students from one school need to be moved to another school, the two Building Administrators shall make arrangements for a learning environment to occur while at the temporary location.

If students need to be evacuated to a remote school/location, the Transportation Supervisor will be notified to send buses to the selected loading area for evacuation purposes.

When alerted, the classroom teachers shall lead the students out of the building to the appropriate location as directed by the Building Administrator or designee as the emergency dictates. Teachers shall bring their class roster with them.

Special area teachers and non-instructional employees will help whenever needed to chaperon or supervise students as directed.

The Building Administrator will direct the Building Secretary to notify the location sites when the evacuation is underway. The Building Administrator will designate someone to bring the "Emergency Bags" which contain information for all students and staff as well as other emergency items.

The Head Custodian and maintenance department employees will check to ensure that everyone has evacuated and secure the building, to the extent possible.

2. Second Step

All Teacher, staff and students will remain at the temporary location(s) until further notice.

Students shall be supervised to ensure calm and quiet.

Teacher shall take attendance and notify the Building Administrator if a student is not present.

If students go to another school, teachers and students shall proceed with as normal a schedule as possible.

Marcellus Central School District
District-wide SAVE Plan

3. PROTECTIVE ACTION OPTIONS - 155.17 (e)(1)(xv) - continued

C. EVACUATION TO AN OFF-SITE LOCATION - continued

3. Third Step

The Building Administrator awaits further directions from the Superintendent.

A parent or guardian who arrives at the temporary location may take his/her child by signing the student out at the Main Office or other designated location. The Building Administrator will assign someone to maintain a sign out list.

4. Bus Loading Plan

All students will dismiss in a normal fashion. The buses will arrive at the usual bus loading site, if possible. An alternate site will be chosen if conditions warrant and communicated to the Transportation Supervisor before buses are dispatched. If buses are not available, staff and students shall walk to the relocation site if within walking distance and directed to do so by the Building Administrator or Incident Commander.

5. Notification

Parents will be notified that relocation has occurred and will be given instructions for reunification via the local media.

D. HOLD-IN-PLACE

A Hold-In-Place procedure is used to limit movement of students and staff in hallways while dealing with short term emergencies.

In the event the Building Administrator, or person-in-charge, is advised or deems it necessary to initiate a Hold-In-Place, the following procedures will commence.

- a. The Building Administrator, or designee, will apprise all staff members over the PA system;
- b. Listen for instructions about the situation and your expected actions;
- c. Students in hallways should return to assigned classroom, if possible;
- d. Classroom teachers, take attendance. If students from other class(es) are present, notify instructor(s) of home classroom;
- e. All other staff assist students, as needed;
- f. Classroom instruction can continue as normal;
- g. Do not respond to class bells;
- h. Classroom telephone may be answered;
- i. Respond to fire alarm as normal;
- j. Listen for updates and further instructions.

3. PROTECTIVE ACTION OPTIONS - 155.17 (e)(1)(xv) - continued

E. SHELTERING

Not all Emergencies will require building occupants to get out and go somewhere else. A sheltering procedure is appropriate for situations when it is necessary to hold students in an inside Safety Zone temporarily during an Emergency until things can be returned to normal or dismissal can be arranged. Protocols for each emergency response procedure are in the Building Safety Plans. General procedures are as follows:

1. Upon receiving instruction from local, county or state governmental emergency response agencies the Superintendent shall notify the Building Administrator(s) of the need to initiate the Sheltering Plan.
2. If an incident occurs near school and the Building Administrator is the first to be informed, he or she shall make a decision, based upon the nature of the emergency or upon the direction of local emergency commanders, whether to shelter all students and staff inside the school building. The Building Administrator shall inform the Superintendent and the 911 Control Center of the determination.
3. Upon notification of an Emergency or the exercise of a drill, the Building Administrator shall instruct students and staff to report to the designated 'inside' Safety Zone. Faculties are to bring their class roster with them and maintain charge of their class in the Safety Zone unless otherwise directed.
4. During sheltering for certain types of air pollution problems, chemical spills or radiological emergencies, windows should be closed and ventilation systems and outside air intakes should be shut down.
5. The Building Administrator will assign appropriate duties to selected staff members and custodian, to include securing the building
6. Students/staff will remain inside the building until the Building Administrator is advised by the Incident Commander or emergency management authorities to take further action.
7. If such procedure necessitates remaining in school after hours, the Superintendent of Schools will issue a public notice to this effect through the local news media and social media. Parents will be advised as to appropriate responses, including, where to sign-out their child (if appropriate). As necessary, the Superintendent will coordinate the use of District resources in cooperation with the Incident Commander and request assistance from County Emergency Management Office, the American Red Cross and other agencies as appropriate (See Appendix B, "*Emergency/Agency Telephone Numbers*").
8. The Building Administrator will keep the teaching staff, the school nurse, the custodial staff, and the cafeteria staff informed.

3. PROTECTIVE ACTION OPTIONS - 155.17 (e)(1)(xv) - continued

F. LOCK-DOWN

A Lockdown procedure is appropriate for situations, which mandate that students remain in one location until authorized to move. Protocols for each emergency response procedure are detailed in the Building-level Safety Plans. General procedures are as follows:

1. A Lockdown procedure is called when leaving or walking through the building would endanger the health and safety of the students or staff.
2. The Building Administrator will contact local 9-1-1 emergency responders and notify the Superintendent.
3. The Building Administrator will apprise all building occupants of a Lockdown order using plain language announcement on the public address system. Staff shall secure their classroom and lock their door. Students and staff shall remain in their classrooms or work-area until the Building Administrator or law enforcement officials physically open the door.
4. Parents will be advised as to preferred responses, and be instructed to NOT to report to the school to sign out their child. The Superintendent, or designee, will provide information and updates to parents and the media at the media reception area at a predetermined location.

3. PROTECTIVE ACTION OPTIONS - 155.17 (e)(1)(xv) - continued

G. LOCK-OUT

A lock-out procedure most commonly used when the incident is occurring outside the school building, on or off school property, which allows the school to continue with the normal school day, but curtails outside activity, and allows no unauthorized personnel into the building.

1. The Building Administrator, or person-in-charge, will apprise all building occupants that lock-out procedures are being implemented using a plain language announcement.
2. The Building Administrator will contact local 9-1-1 emergency responders (if not first apprised by law enforcement) and notify the Superintendent.
3. If the emergency dictates, building staff should close and lock windows.
4. Students/staff who are on the school grounds will be immediately summoned to return to the school building
5. The Building Administrator will assign selected staff members and/or custodian(s) to secure the building.
6. The main entrance will be monitored. Only AUTHORIZED personnel will be allowed in the building
7. Modify normal dismissal procedures as appropriate.

3. PROTECTIVE ACTION OPTIONS - 155.17 (e)(1)(xv) - continued

H. EARLY DISMISSAL

An early dismissal is appropriate in the event of a system failure, such as heating, plumbing or electrical failure, that renders the building unsuitable for instructional purposes. Early dismissal may also be a viable option for other Emergency situations as decided by the Superintendent of Schools. Each Building Safety Plan shall contain provisions on the development of a telephone tree or other communication procedure to notify parents or guardians of early dismissal.

1. Early dismissal is available as a building evacuation option for Emergency situations as decided by the Superintendent of Schools.
2. Similar to evacuation, early dismissal (or “go home”) is merely a procedure for getting students out of the building and united with their families or with responsible individuals who have been designated by the parents to care for the child in their absence.
3. Due to the time it takes to coordinate an early dismissal, this action is normally coordinated at the District level and is typically used in response to inclement weather, or loss of heat or other utilities in the building.
4. The Transportation Department will be notified when and where to send buses.
5. Emergency contact information will be utilized to facilitate uniting students with their families or with responsible individuals who have been designated by the parents to care for the child.
6. Early dismissal will follow normal dismissal procedures unless the situation warrants otherwise. The Building Administrator or designee, as the Emergency dictates will select alternate dismissal procedures and/or loading areas.

Marcellus Central School District
District-wide SAVE Plan

4. PREVENTION AND INTERVENTION STRATEGIES - 155.17 (e)(1)(xvi)

The District operates a number of specialized programs, some at the District level and some at the building level, which deal with students whose needs and/or disabilities put them at risk of inappropriate or violent behavior. Applicable Board Policy/Administrative Regulations pertaining to; *“Prevention and Pre-referral Strategies in General Education: Approaches to Instruction and Behavioral Support”*, *“Guidelines for Referral to Committee on Special Education (CSE)”*, and *“Suicide”*, provide general guidelines for the classroom setting. These programs have specialized components to reduce and eliminate the possibility of student violence. Three such District-wide programs are described below:

A. SPECIAL EDUCATION PROGRAMS

1. The programs serving students with emotional disabilities provide services including individual counseling, group counseling, psychiatric evaluation, home visits, family counseling and a behavioral management program (including teacher training).
2. The students are closely monitored by trained staff and any indication of violent behavior, e.g. rumor of weapons, and are immediately followed up with the involvement of local law enforcement, social services, mental health services and parents.
3. When students express any suicidal or violent intentions, the staff member alerts mental health services and parents, sometimes leading to hospitalization.
4. When there is any suspicion of abuse, appropriate agencies are notified and investigations are initiated.

B. ALTERNATIVE EDUCATION PROGRAMS

1. The Alternative Education programs deal first with the social issues affecting students’ academic achievement and second with academic issues. The programs begin each day with “family groups” and periodic town meetings are held. When necessary, individual counseling is provided.
2. Steps 2, 3, and 4 in Section A, above are followed in Alternative Education programs.

C. OTHER PROGRAMS

1. Gun-Free Schools Program (see applicable Board Policy)
2. Suicide Prevention, Intervention and Post-intervention Program (see applicable Board Policy).

**5. EARLY DETECTION OF POTENTIALLY VIOLENT BEHAVIORS –
155.17 (e)(1)(xvi) (based upon applicable Board Policy/Administrative Regulations)**

In order to prevent violence before it begins, staff and students should look for certain warning signs of potentially violent behavior. The following list was adapted from the International Association of Chiefs of Police, Guide for Prevention of School Violence. Staff members or students who observe any of these warning signs in a student, and who believe that such student is a threat to himself/herself and/or others, or may display aggressive rage or violent behavior, shall immediately notify the Building Principal. As deemed necessary and/or appropriate, the Building Administrator will contact the following individuals: the potential victim(s) and/or their parents/guardians; the parents/guardians of the student who made the threat; law enforcement officials, the school psychologist and/or counselor; and the Director of Special Education, if applicable, in order to discuss the student's behavior and implement a plan of appropriate intervention as may be necessary. The Superintendent will be kept informed as to actions taken by the Building Administrator.

5. EARLY DETECTION OF POTENTIALLY VIOLENT BEHAVIORS - continued
155.17 (e)(1)(xvi)

B. USE SIGNS RESPONSIBLY

The fact that a student exhibits the behaviors above does not necessarily mean that such student is violent. The early warning signs listed above are offered as an aid identifying and referring students who may be potentially violent and are in need of help. It is important to note that these early warning signs are not equally significant and are not presented in any particular order. Furthermore, it is inappropriate, and potentially harmful, to use the following warning signs as a checklist against which to match individual students. School staff should use the early warning signs for identification and referral purposes only; it is the responsibility of trained professionals to make diagnosis in consultation with the student's parents or guardians. Therefore everyone concerned must take precautions that students are not needlessly stigmatized.

10. PROTOCOLS FOR RESPONDING TO A DECLARED PUBLIC HEALTH EMERGENCY INVOLVING A COMMUNICABLE DISEASE

A. INTRODUCTION

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law paragraphs k and ii of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable.

This plan has been developed with the input of representatives from the Marcellus Faculty Association, Marcellus Employees Union, Marcellus Transportation Employees Union, Marcellus Administrators Association and the Marcellus Substitute Teachers Association.

No content of this plan is intended to impede, infringe, diminish, or impair the rights of our valued employees and the district as a whole under any law, rule, regulation, or collectively negotiated agreement, or the rights and benefits which accrue to employees through collective bargaining agreements, or otherwise diminish the integrity of the existing collective bargaining relationship.

A copy of the final version of this plan will be published in a clear and conspicuous location and shall be included in The District Safety Plan.

The District publishes this Plan based on the requirements in place at the time of its publication but recognizes it must be flexible in the time of response to a communicable disease. Accordingly, the Plan may be updated over time. The District will comply with all applicable local, state, and federal orders, rules, laws, and regulations (collectively, the “Authority”). To the extent the Authority conflicts with any provisions of these Protocols, the District will comply with the Authority.

The Superintendent is responsible for the oversight of the implementation of this Plan and may designate one (1) or more employees to assist in such oversight. The Superintendent will consult legal counsel for guidance regarding any executive orders, rules, laws or regulations, as needed.

B. PURPOSE

Legislation S8617B/A10832 signed by the Governor of New York State on September 7, 2020, requires public employers to adopt a plan for operations in the event of a declared public health emergency involving a communicable disease. This plan was developed with the intent to maintain the safety of our employees and the continuity of our operations. The plan includes the identification of essential positions, facilitation of remote work for non-essential positions, provision of personal protective equipment, and protocols for supporting contact tracing.

C. SITUATION OVERVIEW

On March 11, 2020 the World Health Organization declared a pandemic for the novel coronavirus which causes the COVID-19 severe acute respiratory syndrome. This plan has been developed in accordance with amended laws to support resilience of the spread of this disease or for other infectious diseases and cause a declaration of a public health emergency.

The health and safety of our employees and contractors is crucial to maintaining our essential operations. We encourage all employees and contractors to use CDC Guidance for Keeping Workplaces, Schools, Homes and Commercial Establishments Safe. The fundamentals of reducing the spread of infection include:

- a. Use hand sanitizer and wash hands with soap and water frequently, including:
After using the restroom
- b. After returning from a public outing
- c. After touching/disposing of garbage
- d. After coming in contact with high touch surfaces
- e. Practice social distancing when possible
- f. Notify your supervisor immediately if you are experiencing symptoms related to a communicable disease
- g. Cough or sneeze away from other people or food, cover your nose and mouth with the crook of your arm or a tissue. Immediately dispose of the tissue and wash your hands.
- h. Clean and disinfect workstations as needed, and minimally at the beginning and end of each shift
- i. Comply with other guidance provided by the Centers for Disease Control, the State Department of Health, or County health officials.

D. PLANNING ASSUMPTIONS

This plan was developed based on information, best practices, and guidance available as of the date of publication. The plan was developed to reflect the circumstances of the current Coronavirus SARS-CoV-2 pandemic but also to plan for other infectious disease outbreaks.

The following assumptions have been made in the development of this plan:

Marcellus Central School District
District-wide SAVE Plan

- a. The health and safety of our employees and contractors, and their families, is of utmost importance
- b. The circumstances of a public health emergency may directly impact our own operations
- c. It will take time for us to respond to a public health emergency as appropriate safety measures must be put in place and adjustments made to operations to maximize safety
- d. The public and our constituency expect us to maintain a level of essential operations
- e. A public health emergency will likely have a negative impact on the following:
 - f. Resource support from other jurisdictions
 - g. Procurement of items such as personal protective equipment (PPE) and cleaning supplies
 - h. The operations of other entities, including private sector organizations, and other governmental agencies
 - i. Emergency measures and operational changes may need to be adjusted based upon the circumstances and impacts of the public health emergency, as well as guidance and direction from public health officials and the governor

E. ACTIVATION OF PANDEMIC PLAN

The Superintendent or his/her designee is authorized to execute and direct activation of this plan. At the discretion of the superintendent, implementation may require the support of additional personnel.

Upon activation of the pandemic plan, the Superintendent/designee will:

- a. Notify all employees and contractors of the district by email, text or telephone, with additional information and updates provided as needed
- b. Notify all constituency groups of pertinent operational changes by way of email, text or telephone

Protocols in the Event an Employee or Contractor is Exposed to the Disease

The following protocols will be put in place in the event an employee or contractor is exposed to a known case of the disease, exhibits symptoms of the disease, or tests positive for the disease to prevent the spread or contraction in the workplace:

Staff Exposures

Staff exposures are organized under several categories based upon the type of exposure and presence of symptoms. Following NYSDOH guidelines, we have established the following protocols:

Marcellus Central School District
District-wide SAVE Plan

- a. If employees or contractors are exposed to a known case of the communicable disease that is the subject of the public health emergency and deemed (based on local public health department guidelines) to quarantine, the employee or contractor:
 - i. shall remain at home or in a comparable setting and practice social distancing for the lesser of 14 days or other current applicable NYSDOH/public health guidance for the communicable disease in question.
 - ii. work remotely during this period of time if they are not ill, if such duties are capable of being performed remotely, as determined by the Superintendent, or their designee.
 - iii. continue to work (essential employees ONLY) following potential exposure, provided they remain symptom-free and additional precautions are taken to protect them, other employees and contractors, and our constituency/public, as authorized by law and applicable government agencies.

By allowing these deemed essential employees or contractors to continue to work on site, the Superintendent/designee will:

1. Take additional precautions by requiring that these essential employees wear appropriate PPE at all times to limit the potential of transmission. Other individuals in their proximity will also wear appropriate PPE to minimize exposure.
 2. Limit the exposed 'essential employee's' in-person interactions with other employees or contractors.
 3. Ensure that work areas in which the subject employee or contractor are present will be disinfected according to the current NYSDOH/public health protocol. See the section on Cleaning and Disinfection for additional information on that subject.
 4. Follow all guidelines in Section 2 below, if at any time the 'essential employee' exhibits symptoms.
- b. If an employee or contractor exhibits symptoms of the communicable disease that is the subject of the public health emergency, the employee or contractor will:
 - i. immediately be separated from other employees, customers, and visitors. They should immediately be sent home with a recommendation to contact their physician.

Marcellus Central School District
District-wide SAVE Plan

- ii. notify their supervisor and stay home, with a recommendation to contact their physician.
- iii. Persons exhibiting symptoms may return to work in accordance with other NYSDOH/local public health department guidance.

The District will not require sick employees to provide written verification of a negative test result for the disease in question. However the district may request a healthcare provider's note to validate their illness, qualify for sick leave, or return to work unless there is a recommendation from the NYSDOH/public health officials to do so.

- c. If an employee or contractor has tested positive for the communicable disease that is the subject of the public health emergency, the Superintendent/designee will:
 - i. Advise the employee to isolate at home and follow all NYSDOH or local health department guidelines for release from isolation.
 - ii. Ensure that areas occupied by the subject employee or contractor will be closed off in accordance with applicable NYSDOH/local public health department guidance.
 - 1. NYSDOH and other local public health department guidance will be considered before cleaning, disinfecting, and reoccupying of those spaces will take place. If this time period is not possible, a period of as long as possible will be given.
 - 2. Any common areas entered, surfaces touched, or equipment used shall immediately be cleaned and disinfected.
 - 3. See the section on Cleaning and Disinfection for additional information.
 - iii. Identify any potential employee and contractor exposures
 - 1. If an employee or contractor is confirmed to have the communicable disease in question, the Superintendent or his/her designee will inform all contacts of their possible exposure. Confidentiality shall be maintained as required by the Americans with Disabilities Act (ADA).
 - 2. Apply the steps identified in Section 1, above, as applicable, for all potentially exposed individuals.

We recognize there may be nuances or complexities associated with potential exposures, close contacts, symptomatic persons, and those testing positive. We will follow the NYSDOH/local public health department

recommendations and requirements and coordinate with our local public health department for additional guidance and support as needed.

d. **Cleaning and Disinfecting**

New York State Department of Health and local public health department guidelines will be followed for cleaning and disinfection of surfaces/areas. Present guidance for routine cleaning during a public health emergency includes:

- a. Use of custodial staff to thoroughly disinfect work areas, common area surfaces and shared equipment using products designed for this purpose
- b. Use of appropriate PPE by staff who are tasked with cleaning and disinfection
- c. Cleaning of soiled surfaces with soap and water before being disinfected
- d. Use of products that meet EPA criteria for use against the virus in question and are appropriate for the surface being disinfected
- e. Adherence to instructions for cleaning products to ensure safe and effective use of the products.

Employee and Contractor Leave

Public health emergencies are extenuating and unanticipated circumstances in which the District is committed to reducing the burden on our employees and contractors. The District shall comply with applicable collective bargaining agreements as well as state and federal laws and regulations related to employee leave.

Contractors, either independent or affiliated with a contracted firm, are not classified as employees of the District, and as such are not provided with paid leave time by the District unless required by law.

Protocol for Documenting Hours and Work Locations for Essential Employees and Contractors

In a public health emergency, it may be necessary to document the work hours and locations of each employee and contractor to support contact tracing efforts. Identification of locations shall include on-site work and off-site visits.

To assist with contact tracing, in-person employees and contractors reporting to work locations will sign in and sign out at the beginning and end of their shift.

Protocol to Identify Sites for Emergency Housing for Essential Employees

There are circumstances within a public health emergency when it may be prudent to have essential employees lodged in such a manner which will help prevent the

spread of the subject communicable disease to protect these employees from potential exposures, thus helping to ensure their health and safety and the continuity of the District essential operations.

If such a need arises, hotel rooms may be the most viable option. If hotel rooms are for some reason deemed not practical or ideal, or if there are no hotel rooms available, the district's facilities can be used for emergency housing for essential employees to further contain the spread of the communicable disease to the extent applicable to the needs of the workplace.

A copy of this Plan shall be kept in the office of the Superintendent of Schools, Assistant Superintendent, School Business Administrator, Director of Facilities, Building Administrators, Transportation Supervisor, School Lunch Manager, Building Nurses, and Head Custodians.

21. IMPLEMENTATION OF SCHOOL SECURITY – 155.17(e)(1)(xi)

Certain procedures minimize or provide early warning of problems when unwanted persons are in a school building. The following procedures shall be implemented to improve security in the buildings:

A. BASIC PROCEDURES

1. All District employees are required to wear an employee badge whenever they are serving in any capacity for the District. This includes all shifts and all levels of employment.
2. When school construction/renovation work is anticipated to occur on regularly scheduled school days, all contractor employees shall wear photo identification badges. Issued through Raptor System.
3. General access to buildings shall be limited to a clearly identified central access. All entrances, except for the main access, shall be locked and secured while classes are in session.

B. VISITOR PROCEDURES

The Superintendent of Schools encourages parents/guardians and other district citizens to visit the District's schools and classrooms. The community should feel welcomed in our schools. Since schools are a place of work and learning, however, certain limits must be set for such visits. The Building Administrator, or designee, is responsible for all persons in the building and on school grounds. In light of today's security concerns building accessibility needs to be balanced with the safety of our students and staff.

As such, the following rules apply to visitors to the schools:

1. Signs shall clearly designate public entrances and sign-in procedures.
 - (a) Signage on all entrances clearly designates public entrances and sign-in procedures.
2. Anyone who is not a regular staff member or student of the school will be considered a visitor.
3. All visitors are required to report to the main entrance or office and must be entered in the Raptor System.
 - (a) All visitors, including vendors, will be issued a visitor identification badge and are required to wear the badge at all times while in the school or on school grounds.
 - (b) Visitors must return the identification badge to the main office or designated check-in location and check-out before leaving the building.
 - (c) If a staff member observes a visitor, including a vendor, without a badge then the staff member shall request that person to report to the main office. The staff member shall inform the Main Office that they directed an individual to sign-in. A description of the person shall also be given. If such a request is ignored, the staff member shall report to the Building

Administrator, or designee, that an unauthorized person is in the building.

21. IMPLEMENTATION OF SCHOOL SECURITY – 155.17(e)(1)(xi) - continued

B. VISITOR PROCEDURES - continued

4. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or after school public events are not required to register or sign-in the building.
5. All visitors are expected to abide by the rules for public conduct while on school property as outlined in applicable Board Policy/Administrative Regulations and the District's Code of Conduct. Inappropriate conduct shall be reported to the Building Administrator or event supervisor immediately.
6. The Building Administrator is responsible to enforce the Board Policy/Administrative Regulations and the District Code of Conduct as applied to visitors.

C. STAFF RESPONSIBILITIES

1. All staff should be aware of conditions in and around the building and report anything unusual to supervisors. Staff should scan their areas before leaving at night and upon entering in the morning to check for any unusual packages or items. Anything suspicious should be reported immediately to their supervisor.
2. Upon observing a dangerous or armed person, school staff are not to engage that person but report their presence to the Building Administrator immediately.

D. KEYS AND LOCKS

Procedures for administering and maintaining keys and locks shall be according to applicable Board Policy/Administrative Regulations pertaining to Building Security.

E. SECURITY SYSTEMS AND SURVEILLANCE

Security Systems, Lighting, Administrative Procedures, Card Access at doorways at each building, Surveillance Cameras (viewing parking areas)

22. INDIVIDUAL BUILDING INFORMATION

Building Safety Plans contain maps and floor plans of the buildings, and information on the number of staff and students in that school.

VIOLENT AND DISRUPTIVE INCIDENT REPORTING (VADIR)

Overview

The New York State Education Department's (SED's) Uniform Violent and Disruptive Incident Reporting System (known as VADIR) gathers data on violent and disruptive incidents in schools and uses the information to comply with State and federal reporting requirements and to identify schools as persistently dangerous, as required by the No Child Left Behind Act (NCLB) of 2001. Beginning in 2006, in addition to the list of persistently dangerous schools, the Department has issued a watch list of schools whose number and types of violent incidents warrant concern and increased monitoring, but are not sufficient to identify them as persistently dangerous.

All public schools, boards of cooperative educational services, charter schools, and county vocational education and extension boards are required to maintain individual incident reports on violent and disruptive incidents occurring on school property, which includes incidents occurring in or on a school bus as defined in Vehicle and Traffic Law §142 and at school functions. These individual incident reports are not submitted to SED, but should be retained by the school for six years and be made available for review upon request by SED.

Each year, school superintendents and chief school officers of charter schools are required to submit to SED a *Summary of Violent and Disruptive Incidents* report (*VADIR Summary Form*) for each school in the district or each charter school for the prior school year (July 1st through June 30th). The *VADIR Summary Form* includes information derived from the individual incident forms, such as tallies of incidents, offenders, and victims by type of incident, as well as other information relating to school safety. School superintendents and chief school officers of charter schools complete the *VADIR Summary Form* online using the web-based Basic Education Data System (BEDS), but SED also makes available a paper version of the form to facilitate recordkeeping and data entry. In many cases school personnel complete the paper form and then forward it to the superintendent for review, certification, and entry of the data into the online BEDS system's *VADIR Summary Form*.

A "violent or disruptive incident" in a school setting is defined under section 100.2 of the NYS Education law and relates specifically to such activities that occur on the property of the school district, board of cooperative educational services or county vocational education and extension boards. Specific reporting requirements are linked to any and all "violent" incidents that occur on "School Property" which means "in or within any building, structure, athletic field, playground, parking lot or land contained within the real property boundary line of a public elementary or secondary school; or in or on a school bus ..."
